To Whom It May Concern:

RE: Training Class/Lift Temp Ltd.

I am writing this letter of reference because of the wonderful experience I recently had attending the Forklift Train the Trainer class at Lift Temp Ltd. on Tuesday May 6th 2008.

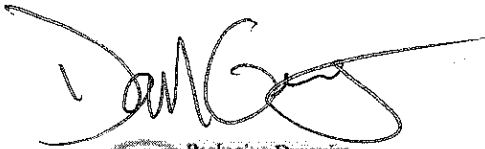

Lift Temp Ltd. is an informative and professional company. Accordingly, I have no hesitation in recommending them as a company with which to do business.

In addition to doing business with this company, I would have to recommend Gary Garofano as one of the most detail instructors that I have ever had the pleasure of dealing with. His knowledge of the rules and regulations is above any I have seen in the past. He made the class very interesting with his high level of enthusiasm. I am quite comfortable in vouching for him as a great instructor.

As far as a company to do business with in the future, Lift Temp Ltd. is one of the best that I have ever dealt with. I would have to say that their practice is to be the leader in information concerning training and safety in the area of forklift operation. In addition I cannot recall hearing anything but praise from my peers that have attended training classes with them as well.

Based on my experience, any additional training needs in this area should come from Lift Temp Ltd.

Sincerely,

Dan Gray - Distribution Manager
